

AAMIR AYUB

Python Developer | Backend Developer | Software Engineer

Rawalpindi, Pakistan

✦Phone: 0320-1966166 ✦Email: aamirayub8081@gmail.com

PROFESSIONAL SUMMARY

Motivated Python Developer with hands-on experience in FastAPI, Django, and PostgreSQL. Skilled in designing and building scalable backend systems, RESTful APIs, and full-stack applications. Seeking to grow within modern software development teams while contributing to robust, production-ready solutions.

EDUCATION

Master of Computer Science (MCS)

University of Science & Technology (UST), Bannu — KPK, Pakistan

CGPA: 2.7 / 4.0 | Department of Computer Science

PROFESSIONAL CERTIFICATIONS

- Diploma in Information Technology (DIT) — Khyber Pakhtunkhwa Trade Testing Board — 2020

EXPERIENCE

Python Developer

Adam Software House

Jan 2024 – Jan 2025

- Gained practical exposure to Python backend development and database management
- Collaborated with the team and worked on internal projects to enhance software skills
- Learned to design and implement APIs, handle data validation, and integrate frontend with backend

TECHNICAL SKILLS

Python	Django	FastAPI	Flask
PostgreSQL	Docker	Git	REST APIs
JSON	Data Validation	Backend Development	

PROJECTS

Laptop / Inventory Management System — *Python, Django, FastAPI, PostgreSQL, React*

- Built RESTful APIs using FastAPI for CRUD operations
- Integrated PostgreSQL for efficient, structured data storage
- Designed a React frontend to manage and display products

Hospital Management System — *Python, Django, FastAPI, PostgreSQL*

- Developed a backend system for hospital management
- Built FastAPI APIs for patient CRUD operations
- Enabled doctors to view patient records
- Used PostgreSQL for structured data management

INTERESTS

Passionate about learning new technologies and improving technical skills. Committed to contributing innovative solutions and supporting organizational growth through creativity and dedication.
